

# Micrometer Setting Standard

Item number: 167-103

## Images

## Description

A Mitutoyo precision length standard for accurately setting a micrometer at the start or end of its measuring range. Can also be used for setting other types of continuous-scale measuring instruments at a certain point within the measuring range when wishing to use the narrow-range accuracy capabilities of that instrument.

## Specification

|                 |                  |
|-----------------|------------------|
| Delivered:      | In a carton box  |
| Inch-Metric:    | Metric           |
| Length (L):     | 75 mm            |
| Diameter (D):   | 6,35 mm          |
| Accuracy:       | ±2,5 µm          |
| Flatness:       | 0,3 µm           |
| Parallelism:    | 2 µm             |
| Measuring face: | Micro-lap finish |
