

Step Master with JCSS Certificate

Item number: 516-499-24

Images

Description

The Step Master is a gauge that provides you with four small increments in height and offers you the following benefits:

- It is constructed from an assembly of five highly accurate, steel or ceramic gauge blocks.
- Each adjacent step is calibrated to a resolution of 0.01 μm by using an interferometer with an accuracy tolerance of $\pm 0.2 \mu\text{m}$.

Specification

Inch-Metric:	Metric
Block step:	300, 100, 50, 20 μm
Material:	Ceramic
Delivered:	In a wooden case with JCSS calibration certificate

Mass:

0.14 kg
